Internships

Geekster | Geekster Coding Bootcamp

- Achieved expertise in DSA by successfully solving over 300+ coding questions on the Geekster platform.
- Demonstrated coding skills by actively participating in various coding contests organised by the Geekster platform..
- Developed functional APIs such as Expense Control and Stock Management System.
- Proficient in technical skills such as **Java, Spring Boot, Hibernate, H2 Database, Rest APIs, AWS-EC2** and **SQL.**

Projects

Recipe Management Service [Github Link]

- Developed Recipe Management Service API system. The project uses the MVC architecture pattern, which makes the code more readable, modular, and less complex.
- Key Features**:** Implemented security measures, including validations, to ensure application safety. Enabled User to perform CRUD operations on Recipe and User account while another users can Only see the Recipe. JPA with Hibernate to connect to a MySQL database, enabling seamless data interaction Deployed the application on AWS EC2 for high performance and scalability.
- Tech Stack: **Java, Spring Boot, MVC Architecture, JPA with Hibernate, MySQL Database, AWS EC2, Git version control**

E-Attendance[Github Link**]**

- It's web based project where user properly record attendance lists through online and digital devices such as desktop.
- I have created this project to understand more about how CRUD operation work and how connect with database. Here Admin can add student, staff, subject and degination and take attendencde of student and Teacher.
- Tech Stack: **PHP, HTML, CSS, JavaScript, Bootstrap.**

Seller Admin Dashboard[Github Link**]**

- It is a web based project where admin properly record all the details like who buy the product who is the vender who is the customer.
- Key Features: Add costumer, vender and product and calculate the gst and igst of the customer.
- Tech Stack: **PHP, Bootstrap, HTML, CSS, JavaScript.**

COVID-19 Live Tracker [*Github Link***]**

- It's web based project where we can track COVID-19 situation
- I have created this project to understand more about how ApIs work exactly.
- Tech Stack: **HTML ,CSS,JAVASCRIPT,BOOTSTRAP,PHP,APIs.**

Skills

- **Computer Language** : Java, SQL ,HTML, CSS, PHP
- **Frameworks / Libraries** : Spring Boot, Hibernate,Maven,Bootstrap
- **Additional Courses** : Data Structure and Algorithms, System Design, OOPs
- **Tools & Technologies :** GIT, VS code, IntelliJ, POSTMAN,SWAGGER

Education

Year	Degree/Examination	Institution/ Board	CGPA/Percentage
2023	BCA	MPC Autonomous College	8.2 CGPA
2020	12th	CHSE	61.16%
2018	10th	BSE	67.33%

Achievements and Co-Curricular Activities

- Hackerrank - Solved questions, achieved 3 stars for java DSA.
- Achieve certificate in JAVA on Hackerrank.
- Gate Qualified 2023
