Professional Experience

Front-end Developement INTERN, *IBM*

Project Accomplishment :
The gaming website aims to be a comprehensive platform offering the
latest news, reviews, and updates on games. Engaging users through community features, guides, and e-sports coverage fosters user engagement. Ensuring responsive design and accessibility, it seeks to become a go-to destination for gamers, tailoring content to user interests through data analytics and promoting inclusivity. The goal is to create a dynamic and supportive online community for all gaming enthusiasts
