Career Objective:

Aspiring computer engineer with a strong academic background and a passion for technology. Eager to contribute my technical skills, problem-solving abilities, and dedication to innovation in a challenging and dynamic environment. Seeking an entry-level role that offers opportunities for professional growth and allows me to make a meaningful impact in the field of computer engineering.

Professional Skills

- Critical Thinking
- Problem Solving
- Communication Skills
- Flexible and Adaptable

Technical Skills

- Client side : Html5 , Css3, JS, React.Js, Tailwind
- Server Side : Java(core+adv) , API , MYSQL
- Framework : Tailwind CSS , BootStrap
- Tools : VS code , IntelliJ IDEA
- Basic Knolwledge: DSA, DataAnalytics,python

Education

Bachelor of Technology in Computer Science and Engineering,CSE 2021 - 2025
Gandhi Institute of Excellent Technocrats , Bhubaneswar
.
12 th / CHSE 2019 - 2021
Tetrahedron Higher Secondary school, Tangi, cuttack
.
10 th / BSE 2019
Saraswati Sishu Vidya Mandir, Bahugram,cuttack

Certifications

- Best Paper presentation in **"National Conference**" on (NCCENGT-2023).
- Completion Certification of Data Analytics Internship at **CTTC** ,**BHUBANESWAR.**
- Completion Certification of MEAN stack.
- Certificate Of Participation in 1 week of BootCamp on "Unmanned Aircraft System – Drone Technology" In NIELIT , BHUBANESWAR Sponsored by **Ministery of Electronic & Information Technology (MeitY),Govt. of India.**
- 7 month course Completion Certification On FULLSTACK JAVA in CAC.
- **1st prize** of Debate competition in Engineer's Day at College

Projects

DATA ANALYTICS- Movie Website Review Analysis

- This movie review report provides an idealized way for analyzing discrepancies and consistencies in movie ratings, understanding bias in reviews, and predicting Fandango ratings based on other platforms. By leveraging this dataset, we can uncover patterns in movie reviews, identify factors influencing ratings, and assess the reliability of Fandango scores compared to other review sites.This analysis aids in comprehending the dynamics of movie ratings and enhancing predictive accuracy in review-based recommendations.
.

WEB DEVELOPMENT – Color Scheme Switcher

The primary objective of creating a color switcher scheme using HTML, CSS, and JavaScript is to provide users with an interactive and customizable user experience by allowing them to change the color theme of a webpage.

WEB DEVELOPMENT –QR Code Generator

To develop a user-friendly QR code generator using HTML, CSS, and JavaScript that allows users to easily create and customize QR codes for various types of data (e.g., URLs, text, contact information). The project aims to deliver a responsive and interactive interface where users can input data, select QR code styles, and generate downloadable QR codes in real-time. The goal is to enhance the accessibility and usability of QR codes for diverse applications, making it simple for users to generate and utilize them across different platforms.

Internships

Data Analytics Intern

CTTC(Central Tool Room & Training Center(MSME)Govt. of India, BHUBANESWAR, ODISHA

Duration: 1st jun 2022 – 29 jun 2022

- Developed Movie website Review Analysis features using Python
- Assisted in optimizing tools like Tableau , Matplotlib , Tensorflow , numpy, pands resulting it improves better analysis of data
